ABOUT MYSELF

Senior full-stack engineer with 6+ years designing, shipping and operating production systems end to end. Architected and run a live multi-tenant SaaS platform — Node.js/React web app, Flutter mobile client, and the cloud infrastructure beneath it — serving multiple corporate clients. Comfortable owning the full lifecycle: architecture, build, deployment, cloud operations and on-call support. Strong DevOps foundation on Oracle Cloud and Linux, plus an AI-assisted development workflow. English C2; based in Germany with full work authorisation.

SKILLS

Backend:

PHP/Laravel | NodeJS | Multi-tenant SaaS architecture

Cloud & DevOps:

Linux server administration | Oracle Cloud | Deployment & Release management | SSL/TLS | Security Audits | Monitoring | DNS

Data:

Schema Design | MySQL / Relational Databases | Large-scale data migration

Workflow:

Git | Staging/testing pipelines | AI-assisted development (LLM coding assistants)

WORK EXPERIENCE

Qodesystems

City: Nairobi | **Country:** Kenya

[01/03/2025 - Current]

Lead Software Architect - Remote from Germany

- Architected and shipped MarketpulseOS, a multi-tenant SaaS platform (ERP/CRM/HRM/POS) on a customised PHP stack, in production for 3 corporate clients.
- Built the companion Flutter mobile app (iOS & Android) sharing the core workflows with the web platform.
- Designed and operate the full cloud stack on Oracle Cloud with isolated staging/testing — deployment, DNS, database administration, SSL, monitoring and security audits — sustaining 99% uptime.
- Own end-to-end delivery: architecture decisions, data migration, release management and production support.

Wideoptions Melamine Limited

City: Nairobi | **Country:** Kenya

[20/06/2024 - Current]

Senior Full-Stack Developer - Remote Contract

- Designed and built a full ERP/CRM system (Node.js backend, React frontend) replacing the client’s legacy platform.
- Led complete data migration — customers, suppliers, products, inventory, 5,000+ records — with zero data loss.
- Provide ongoing cloud server management, database maintenance and system monitoring.

Self-employed

City: Nairobi | Country: Kenya

[01/01/2020 - 01/08/2022]

Freelance Software Developer

- Built e-commerce platforms and business web applications for SME clients, including an online retail platform for a beverage business.

EDUCATION & TRAINING

[01/05/2009 - 05/05/2013]

BSc Computer Science (Second Class Honors)

Jomo Kenyatta University www.jkuat.ac.ke
