👤 About myself

IT professional with 6+ years of experience in software development, systems administration, and ERP/CRM architecture. Co-Founder and Chief Products Architect of Qodesystems, an IT solutions company currently serving 3 corporate clients across Kenya. Recently relocated to Germany (Herrenberg) on a Chancenkarte Visa and actively seeking a full-time IT or software development role. Available immediately. Currently maintaining part-time remote consulting commitments. Proficient in full-stack development, cloud server management, SaaS architecture, and modern AI-assisted development tools.

💼 Work experience

Career Transition — Active Job Search

01/10/2025 – Current

Stuttgart, Germany

- Relocated to Germany on a Chancenkarte (Opportunity Card), legally authorised to seek employment
- Actively applying for full-time IT and software development positions in Germany
- Continuing German language learning (currently A1 level, actively improving)
- Maintaining part-time remote consulting work for existing clients via Qodesystems

Chief Products Architect / Co-Founder : (Remote management from Germany)

01/03/2025 – Current

Qodesystems | Nairobi, Kenya

- Founded and lead Qodesystems, an IT solutions company delivering ERP, CRM, HRM, and POS systems to businesses
- Currently serving 3 corporate clients with active production systems
- Architected and deployed MarkerpulseOS, a SaaS platform built on open-source Perfex CRM
- Managed full server infrastructure: Oracle Cloud (production), Namecheap dedicated servers (staging and testing), and local office server in Nairobi (backup and failover)
- Handled server configuration, DNS and domain management, database management, security audits, and module management
- Developed a companion mobile application for MarkerpulseOS using Flutter, currently pending Apple App Store and Google Play Store release

deployment

- SaaS platform architecture and management

AI & Modern Development Tools::

- AI-assisted development and automation
- Understanding of LLM capabilities, AI agents, and practical AI tool integration
