### ABOUT MYSELF

Senior full-stack engineer with 6+ years designing, shipping and operating production systems end to end. Architected and run a live multi-tenant SaaS platform - LEMP stack (Linux, Apache, MySQL, PHP), Flutter mobile client, and the cloud infrastructure beneath it - serving multiple corporate clients. Comfortable owning the full lifecycle: architecture, build, deployment, cloud operations and on-call support. Strong DevOps foundation on Oracle Cloud and Linux, plus an AI-assisted development workflow. Co-founded a SaaS company in Kenya before relocating to Germany in October 2025; now seeking a full-time IT role in Germany, eligible for the EU Blue Card. English C2.

### SKILLS

#### Backend:

PHP/Laravel | NodeJS | Multi-tenant SaaS architecture

#### Cloud & DevOps:

Linux server administration | Oracle Cloud | Deployment & Release management | SSL/TLS | Security Audits | Monitoring | Cloudflare | DNS

#### Data:

Schema Design | MySQL / Relational Databases | Large-scale data migration

#### Workflow:

Git | Staging/testing pipelines | AI-assisted development (LLM coding assistants)

#### Frontend

Flutter | React | NextJS | Vue & Angular

### WORK EXPERIENCE

**Qodesystems** [www.qodesystems.com](https://www.qodesystems.com)

**City:** Nairobi | **Country:** Kenya

[ 01/03/2025 - Current ]

#### Co-Founder & Technical Advisor (Remote, Advisory)

- Co-founded and architected MarketpulseOS, a multi-tenant SaaS platform (ERP/CRM/HRM/POS) on a LEMP stack, now in production for 3 corporate clients.
- Scaled back to an advisory role as the company transitioned to full-time operation under my co-founder; retain ownership and management of the production server infrastructure.
- Provide targeted technical support beyond my co-founder's scope - code changes, bug fixes, and small feature additions for clients on the SaaS platform.
- Selected past contributions: built the companion Flutter mobile app; led the Wideoptions Melamine migration onto MarketpulseOS; built a distribution-operations module for an alcoholic beverages distributor.

## **Wideoptions Melamine Limited**

**City:** Nairobi | **Country:** Kenya | **Business/sector:** Manufacturing

[ 20/06/2024 - 29/05/2025 ]

### **Full-Stack Developer - Remote Contract**

- Built Wideoptions' first ERP/CRM system from the ground up (Node.js backend, React frontend), taking the company from manual processes to a fully digital operation.
- Scaled the system to support 700+ retail and wholesale customers and 50+ staff members using it on an hourly basis; reduced paperwork by 80%.
- Led data migration of customers, suppliers, products and inventory (5,000+ records) with zero data loss.
- Sustained 99% uptime through ongoing cloud server management, database maintenance and system monitoring.
- Provide ongoing cloud server management, database maintenance and system monitoring.

## **ByteBridge Innovations**

**City:** Nairobi | **Country:** Kenya

[ 01/07/2023 - 01/06/2024 ]

### **Co-Founder / IT Technician (Side Venture, Intermittent)**

- Co-founded a Starlink satellite internet reselling and installation business shortly after Starlink's Kenya launch - purchasing, marketing, installing and supporting kits for residential and commercial clients.
- Managed a small technician team and client relations as company director.
- Wound down as Starlink became widely available through retail channels, reducing demand for independent resellers.

## **Self-employed**

**City:** Nairobi | **Country:** Kenya

[ 01/01/2015 - 01/01/2024 ]

### **Freelance — Software Development, 3D Animation & Motion Graphics**

- Mixed freelance and contract work across software development and 3D animation/motion graphics, including 3D animation for Coop Bank (2018) and 3D modelling for Doshi Group (2019).
- Built and continue to maintain Lockdown Ice (lockdownice.com), an e-commerce platform for a Kenyan beverage retailer - Laravel back-end with companion Flutter apps on Android and iOS, API-driven and synced in real time across web and mobile.
- Work volume varied with client demand; transitioned into full-time software development with Wideoptions Melamine in 2024.

## **EDUCATION & TRAINING**

[ 01/05/2009 - 05/05/2013 ]

### **BSc Computer Science (Second Class Honors)**

**Jomo Kenyatta University** [www.jkuat.ac.ke](http://www.jkuat.ac.ke)

[ 28/04/2026 - Current ]

### **German Language Course (Towards B1)**

**VHS Herrenberg**

## **LANGUAGE SKILLS**

**Mother tongue(s):** Suaheli

**Other language(s):**

## English

**LISTENING:** C2 **READING:** C2 **WRITING:** C2

**SPOKEN PRODUCTION:** C2 **SPOKEN INTERACTION:** C2
